

## Nada Raza

BAS Honours in Finance 2008

After graduating, Nada pursued her CFA designation and is currently working at RBC Capital Markets on the London Rates Setting desk. She works in Fixed Income Derivative Operations and ensures that deals are priced by inputting the interest and foreign exchange rates. She also is a liaison for RBC's Settlements and Middle Office teams in London dealing with Structured Business Products. On her off time, she takes on small projects to salvage or build from scratch inspired furniture pieces for families or individuals that cannot afford home furnishings.

**When not working, Nada can be found...**Swimming at the North Coast of Egypt, biking through the tight streets of Amsterdam or planning her next vacation.

**Favourite book...and why?** The Godfather by Mario Puzo - Because it was so captivating and quite the page turner that I zipped through it every chance I got and finished it within two days.

**Thing I just can't live without...**my Nikon.
